The FTC should not allow the ConocoPhillips group to discriminate against its Union employees. We are not being given the "work force stabilization" package that all of the non Union employees are getting. That is blatant discrimination of the worse kind. We are the people who work 24/7, all holidays in any weather and at all hours of the day and nite. This discrimination against one group of people should not be tolerated. I firmly recomend that you do not approve the merger until or unless all employees are dealt with fairly. We are only talking about 80 people. Please consider the fact that employees like myself, 26 year veteran, are being discriminated against. Foul play should not be allowed just because ConocoPhillips can afford more attornies than we can. This matter should be settled before you give any approval. Thank you for your time
